

## Victim Board Art FAQ's

### 1.Q: How is your art applied to the board?

**A:** Victim Board Art application is a 2 part process; 1<sup>st</sup> cutting the graphic and 2<sup>nd</sup> laminating the graphic. Art There are several ways to cut and apply Victim Board Art laminates and here is our recommended method:

- **Cutting** – 1. Place the graphic on the surfboard. 2. Lightly tape the Victim art to the foam to keep art in place. 3. draw the cutting line with a pencil and cut the graphic out, other methods will work as well.
- **Laminating** – 1. Place the Victim graphic directly on the foam. 2. Next, apply one or more fiberglass layers and resin and squeegee. There are other variations of laminating the art as well. **\*Important: Do not apply squeegee and resin directly to Victim graphic laminate as it can tear or distort the graphic, it's important to apply the Victim graphic under at least one layer of fiberglass..**

### 2.Q: What is the Victim Laminate material?

**A:** We use two different materials: Silky Rice paper and our premium white fabric. Both materials are very light weight and also wet out nicely and do not cause air bubbles. The rice paper is extremely transparent and is very seamless looking. Our premium white fabric provides brighter and crisper colors and is translucent. Our inks have superior durability which last over 5 years without fading.

### 3.Q: Does the laminate add weight?

**A:** We use a very light weight material and adds very little weight and not noticeable about, 5 to 8%.

### 4.Q: Is it difficult to laminate and glass the art laminate into the board?

**A:** No, it's not much different than applying fiberglass cloth; any experienced laminator will have no trouble at all.

### 5.Q: Does the art laminate cause delaminating?

**A:** No, this is not an issue but just like with any dark painted colors or dark laminate becomes more sensitive to heat and should not be allowed to bake in the sun.

### 6.Q: I have a graphic that I would like to have printed, will you print it for me?

**A:** Yes, we will print any type of graphic you want. It is recommended to be at least 200 dpi and can be in the following format: JPEG, PDF, IA, TIFF. The cost is \$36 for up to 3 ft long and \$70 for up to 7 ft in length. Bulk printing discounts also available.
